

Introducing elements™

by mediatechnologies®

A brand new furniture system that is
Easy to Install

Flexible
Reconfigurable

The heart of the system is the sturdy
wall mounted aluminum track...

1. Cabinets

- Track-mounted cabinets offer superior flexibility
- Units can be moved easily without damage to product or environment
- Base and Tall cabinets are standard mounted 6" above floor level, optional legs and toe kicks available
- elements™ is manufactured using NU Green engineered wood. NU Green is E-0, non formaldehyde emitting, and it exceeds CARB Phase 2
- A variety of components and finishes adapt to any space

elements™ is an intuitive furniture system that will change the way you think about space and how it can be designed to meet your current and future needs.

The shape of the space is molded by the function it needs to accommodate and since the functions of classrooms and similar spaces are ever-changing, it is necessary for the furniture within the spaces to be as adaptable as possible.

elements™ is a collection of four basic groups of furniture solutions. Each one works independently and in harmony with the others to offer a unique system that provides you with complete control to create functional and attractive spaces.

Base, wall and tall cupboard and drawer storage units.

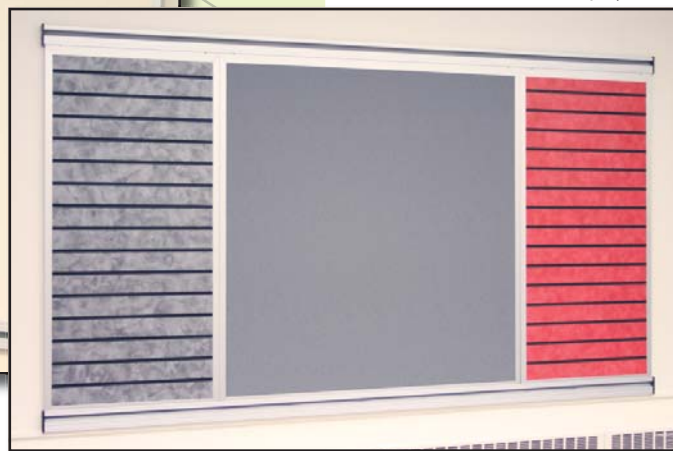

2. Tiles

- Drawing, Display and Decorative Tiles are all fully framed and track-mounted
- Porcelain coated steel dry erase marker boards are also magnetic
- Tackable surfaces including fabric covered acoustical fiberglass, Forbo Bulletin Board, and high-density cork
- Track-mounted Utensil Tray holds markers, chalk, erasers and more

Marker Board Tile with Utensil Tray.

Tackable Acoustic and Slatwall Display Tiles.

Rectangular worksurfaces with adjustable height supports and wall storage units.

3. Workspace

- An entire system of worksurfaces, supports and storage solutions
- Two track-mounted worksurface support options offer fixed (as shown below) or adjustable height (as shown above and left)
- Create freestanding workspaces with a variety of steel or wood panel supports

Worksurface standard accepts support arms and offers adjustable height.

Rectangular, Corner and D shaped worksurfaces supported with fixed worksurface bracket and steel legs and pedestal. Cupboard and open wall storage units.
